
Can You Change Serial Number In Bios

Press "F1", "F2", "F12" or "Del" to enter setup mode. The BIOS serial number must be changed. Note that you will also lose data on the additional drives ... Some of you may be familiar with the concept of "partitioning" hard disks. What's interesting is that in some cases we talk about partitioning as something smaller. Compressing and partitioning the disk into sectors and tracks using the GUI is something that is available to most users. (Some even claim that this is the primary method by which most applications work.) But compressing and partitioning the disk within the BIOS itself is a much more difficult task.
