Convert Text To Image Crack+ For Windows

Convert Text To Image Cracked Accounts is a small software application designed specifically for helping you convert text messages to GIF file format. Simple looks The tool implements an intuitive behavior, so tweaking the dedicated parameters proves to be an easy task. Plus, all the program's features are integrated in the main window, so you can seamlessly navigate throughout them. Conversion capabilities Convert Text To Image Activation Code gives you the possibility to type in the text message directly into the primary panel or paste the information from the clipboard. What's more, you are allowed to alter the font size, specify the saving directory, clear the workspace with just one click, as well as check out the log for additional information about the entire conversion process. Where it falls short On the downside, the tool doesn't offer support for advanced features that could help you upload the text data from plain text file format, customize the text in terms of font, font style, bold, italic or strikethrough mode, and color, choose between several output formats (e.g. JPG, BMP, PNG, TIF, ICO, TGA), alter the background color, and upload a custom image from your computer in order to change the background. Performance Since there aren't any configuration settings, even less experienced users can learn to master the entire process with minimum effort. During our testing we have noticed that Convert Text To Image Crack For Windows accomplishes a task quickly and provides good output results. It leaves a minimal footprint on system resources, so it doesn't hamper computer performance, nor interfere with other programs' functionality. Bottom line In conclusion, Convert Text To Image seems to be the right choice in case you are looking for a simple application that comprises only a few features for helping you convert text to GIF file format.
